Testimonial from another satisfied Twelve Strike customer:

"I have been in the bowling industry for over 40 years. I have seen many scoring systems come on the market as the "latest and greatest". I began my business relationship with Twelve Strike in 1991 when I installed our first scoring system. The tech support, owner interaction, program development and customer service has been unmatched by anyone else in the industry. We just installed their new system and again we are extremely satisfied with all phases of the install, and the end product is amazing! From the first day our customers have stepped right up to the new touch screen format and operated the new system with ease. Made in the USA, and literally 24/7 tech support talking to a real person!"
